OFFICE OF THE DDI

31 July 1975

DD/OSR

Noel--

I send you this task with considerable reluctance.

Attached are a letter and magazine General Walters received from a man he met after a briefing he gave. Walters asked whether there was anything we could do for him.

Please review the material on pages 76 and 77 and comment on whether there are better unclassified references--perhaps some of the testimony that we or Danny gave Proxmire on an unclassified basis. I don't want to provide this man with information which will generate a public fight on whose intelligence data are better.

Please give me some suggested language for the General's response. If there is something useful we can do for this guy, then OK. If, however, we can't do much, let's say so with a little background for the General to understand.

*Ed*
